

DPD-7582-59

4 October 1959

Dear Sid:

Over the past few years Bill and Bob have both purchased many miscellaneous items under existing contracts which would normally have been purchased locally. This has been necessary since they have not had local purchase funds. This, of course, results in mark ups by the Contractor for handling and for profit. It also is a little unusual under normal procurement policy.

Fred is considering local purchase funding for I wonder if you would discuss this problem with Bill.

Sincerely yours,

Dan
